Aberdeen International Airport Internship Management Program 2025

Description

The Aberdeen International Airport Internship Management Program 2025 offers a unique opportunity for recent graduates or students pursuing a career in airport operations, management, or related fields. This program is designed to provide hands-on experience in various aspects of airport management, including customer service, logistics, security, operations, and strategic planning. Interns will gain insight into the day-to-day operations of a busy international airport while contributing to projects that support our mission of delivering safe, efficient, and high-quality services to our passengers and stakeholders.

Responsibilities

- Participate in daily operations and contribute to the efficient functioning of various departments at the airport, including security, customer service, aviation operations, and facilities management.
- Assist in analyzing operational data and identifying opportunities for process improvements.
- Support the planning and execution of airport projects, including infrastructure upgrades and technology initiatives.
- Work closely with senior management and staff to learn the intricacies of airport operations and business strategy.
- Provide administrative support, including preparing reports, presentations, and communications.
- Attend meetings and participate in discussions on key airport developments and operational challenges.
- Collaborate with teams across different departments to enhance the passenger experience and overall airport efficiency.
- Assist in the preparation and execution of special events or promotions related to airport services.

Qualifications

- Enrolled in or recently graduated from a university or college program in Business Administration, Airport Management, Aviation, Logistics, or a related field.
- Strong academic record, with a demonstrated interest in aviation or airport management.
- Ability to work both independently and as part of a team.

Experience

- No prior airport management experience is required, but any internship or work experience in a related field (aviation, logistics, customer service) will be considered an advantage.
- Previous experience in customer service or a fast-paced environment is desirable.
