

Baker Hughes Internship Graduate Students 2025 Opportunities

Description

Baker Hughes is offering exciting internship opportunities for graduate students in 2025 to join our innovative and dynamic teams. This program is designed to provide students with hands-on experience in the energy sector, fostering the development of skills that will set the foundation for a successful career. Interns will work alongside professionals in a collaborative environment, contributing to impactful projects while gaining exposure to real-world business challenges.

Responsibilities

As an intern at Baker Hughes, you will have the opportunity to:

- Assist in the development, testing, and implementation of innovative solutions for the energy industry.
- Work on key projects within your field of study (engineering, data science, finance, etc.).
- Collaborate with multi-disciplinary teams to solve complex problems and optimize performance.
- Contribute to operational efficiency improvements and cost reduction strategies.
- Conduct research and analysis to support ongoing business initiatives.
- Participate in team meetings, brainstorming sessions, and client presentations.
- Gain exposure to Baker Hughes' global operations, products, and services.

Qualifications

- Current graduate student enrolled in a relevant degree program (e.g., Engineering, Data Science, Business, or related fields).
- Expected to graduate between December 2025 and May 2026.
- Strong academic performance (3.0 GPA or higher).
- Availability to participate in a full-time internship for a duration of 10-12 weeks during the summer of 2025.

Experience

- Previous internships, research experience, or academic projects in relevant fields is a plus.
- Experience with Microsoft Office Suite, including Excel, PowerPoint, and Word.
- Any exposure to coding, data analysis tools, or engineering software is an advantage

Skills

- Strong analytical and problem-solving skills.
- Excellent communication and interpersonal skills.
- Ability to work collaboratively in a team environment.
