CDC Internship Program 2025 Current Graduate Students

Description

The Centers for Disease Control and Prevention (CDC) offers an enriching Internship Program for Current Graduate Students in 2025. This program provides an exceptional opportunity for graduate students to gain valuable hands-on experience in public health, epidemiology, data analysis, and policy research. Interns will collaborate with leading experts at the CDC, contributing to initiatives aimed at improving public health on a national and global scale. This internship will provide exposure to real-world public health challenges while enhancing the academic and professional growth of students.

Responsibilities

- Assist with ongoing public health research and epidemiological studies, including data collection, analysis, and reporting.
- Contribute to the development and implementation of public health policies and programs.
- Collaborate with CDC teams to analyze health data and provide actionable insights.
- Support the design and execution of public health interventions and disease prevention programs.
- Assist in preparing reports, presentations, and publications based on research findings.
- Participate in meetings with public health experts and contribute to the discussion of ongoing projects.
- Conduct literature reviews and assist in preparing materials for regulatory submissions or scientific papers.
- Participate in workshops, seminars, and networking events to enhance professional development.
- Provide logistical and administrative support for public health programs and initiatives.
- Assist with outreach efforts and public health education campaigns aimed at diverse communities.

Qualifications

- Currently enrolled as a graduate student (Master's or Doctoral level) in public health, epidemiology, biostatistics, healthcare policy, environmental health, or a related field.
- Enrollment in a graduate program with at least one year of completed coursework by the time the internship begins (Summer 2025).
- Must be available for the full duration of the internship, typically 10-12 weeks during the summer.

Experience

- Previous experience in public health research, data analysis, or healthcare-related internships is preferred but not required.

Hiring organization

CDC Internship

Employment Type

Intern

Duration of employment

6 Months

Industry

Government Administration

Job Location

Atlanta, Georgia, United States, 30002,, Atlanta,, Georgia,, United States,

23.01.2026

- Experience in academic research, laboratory settings, or community outreach is a plus.
- Knowledge of public health issues and familiarity with CDC programs or initiatives is advantageous.

Skills

- Strong analytical skills with the ability to work with large datasets and statistical software (e.g., SAS, R, SPSS).
- Excellent written and verbal communication skills, with the ability to synthesize complex information for diverse audiences.
- Knowledge of public health principles, epidemiological methods, and disease prevention strategies.
- Proficient in Microsoft Office Suite (Excel, PowerPoint, Word) and other relevant tools for data analysis.
- Strong problem-solving skills, attention to detail, and the ability to think critically.
- Ability to work both independently and collaboratively within multidisciplinary teams.
- Strong organizational and time management skills.
- A commitment to public health and a passion for improving community health outcomes.

Job Benefits

- Competitive stipend or hourly compensation to support living expenses.
- Hands-on experience working at one of the world's leading public health agencies.
- Mentorship and guidance from CDC professionals and public health experts.
- Networking opportunities within the public health community.
- Participation in workshops and seminars focused on public health career development.
- Access to professional development resources and CDC events.
- Opportunity to work on high-impact projects that contribute to improving public health nationally and globally.
- Potential for future employment opportunities with the CDC after successful completion of the internship.

How To Apply

- Submit your updated resume/CV along with a cover letter outlining your interest in the program, your academic background, and any relevant experience.
- Provide an official transcript from your graduate program to confirm your academic status.
- Include contact information for two professional or academic references who can speak to your qualifications and work ethic.
- Complete the online application form on the CDC careers portal.
- Ensure all required documents are submitted before the application deadline.
- The selection process will include an interview, and selected candidates will be notified based on their qualifications and alignment with CDC's priorities.
