Census Summer Internship Research New Opening 2025

Description

The Census Summer Internship Research Programme 2025 offers students and early-career individuals the opportunity to work on impactful research projects related to national census data collection, analysis, and interpretation. Interns will gain firsthand experience in demographic research, statistical analysis, and data management, while contributing to projects that inform critical national policies and societal decisions. This is an ideal position for those interested in data science, social research, and public policy.

Responsibilities

- Assist with the analysis and processing of census data, including demographic, social, and economic information.
- Support the preparation and development of statistical reports, presentations, and visualizations based on research findings.
- Participate in literature reviews to inform research methodologies and project development.
- Collaborate with senior researchers in the design and execution of data collection and analysis processes.
- Conduct data quality checks and ensure the accuracy and reliability of statistical outputs.
- Assist in preparing briefs and reports for internal and external stakeholders.
- Contribute to the development and testing of new data collection tools and methodologies.
- Engage in fieldwork or data gathering activities as required by specific projects.
- Attend team meetings and contribute to project discussions

Qualifications

- Applicants must be currently enrolled in, or have recently completed, an undergraduate or postgraduate degree in statistics, social sciences, demography, economics, or a related field.
- A strong academic background in research methodology, quantitative analysis, or data science is preferred.

Experience

- Previous experience in research, data analysis, or statistical work is an advantage but not essential.
- Experience with statistical software (e.g., R, SAS, SPSS, Python) is a plus.
- Experience in data visualization or presenting complex data is desirable.

Skills

- Strong analytical and problem-solving abilities.
- Excellent written and verbal communication skills.

Hiring organization

Census Internship

Employment Type

Intern

Duration of employment

6 Months

Industry
