National Geographic Internship Graduate Opportunities 2025 Apply Now

Description

National Geographic is offering graduate-level internship opportunities for 2025 to individuals eager to contribute to meaningful work that inspires, educates, and explores the world. Interns will have the chance to work alongside experts in various fields of exploration, science, conservation, storytelling, and more. This program is designed for recent graduates who are looking to apply their knowledge and skills to real-world projects that align with National Geographic's mission to inspire and engage people to explore and protect the planet.

Responsibilities

- Support the team with research and development of content for National Geographic publications, documentaries, and digital platforms.
- Assist in creating and curating educational and environmental materials, resources, and campaigns.
- Contribute to the development of marketing, outreach, and social media strategies to increase awareness about key projects and initiatives.
- Assist with the collection, organization, and analysis of data for ongoing projects in the fields of conservation, science, or education.
- Participate in brainstorming and collaborative sessions to ideate new content concepts and program strategies.
- Help prepare presentations and reports summarizing research findings or project progress.
- Provide general administrative support and contribute to the smooth operation of various teams and departments.
- Attend meetings and provide input, sharing insights based on your field of study or area of expertise.

Qualifications

- A recent graduate (within 1-2 years of graduation) with a degree in relevant fields such as Environmental Science, Journalism, Media, Anthropology, Geography, Conservation, or related disciplines.
- Candidates must have a strong academic record and a passion for storytelling, research, or exploration.
- A demonstrated interest in National Geographic's mission and work in science, conservation, exploration, and education.

Experience

- Previous internship, volunteer work, or academic projects related to research, storytelling, media production, or conservation is preferred.
- Experience in digital content creation, social media management, or scientific research is a plus.
- Previous exposure to National Geographic content (articles, documentaries, or digital content) is beneficial but not required.
