NEA Internship Research Students For Opportunities 2025

Description

The NEA Internship Research Students for Opportunities 2025 program aims to offer students an opportunity to gain hands-on experience in environmental research and policy-making at a national level. Interns will contribute to various projects focused on environmental sustainability, climate change, public health, waste management, and pollution control. This internship serves as a valuable learning platform for students aspiring to work in the environmental science and policy sectors.

Responsibilities

- Assist in conducting research on current and emerging environmental issues affecting Singapore.
- Collect, analyze, and interpret environmental data (e.g., air quality, water quality, waste management, etc.).
- Support the development of reports, presentations, and publications on environmental topics.
- Collaborate with senior research staff in the preparation of research proposals and environmental policies.
- Assist in organizing and coordinating workshops, seminars, and community outreach events.
- Provide general administrative support to the research team, including data entry and database management.
- Participate in environmental monitoring and fieldwork activities when applicable.

Qualifications

- Current enrollment in an undergraduate or graduate degree program in Environmental Science, Environmental Engineering, Public Policy, Sustainability, or related fields.
- A strong interest in environmental issues, research, and policy.
- Ability to work independently and as part of a team.

Experience

- Previous experience in research, data analysis, or environmental studies is a plus but not required.
- Familiarity with environmental monitoring equipment or research software (e.g., Excel, R, GIS) is advantageous.

Skills

- Strong analytical and problem-solving abilities.
- Excellent written and verbal communication skills.
- Ability to present complex data and findings clearly and concisely.
- Detail-oriented with the ability to handle multiple tasks and deadlines.
