## UPMC Internship Research Graduate Program 2025 Vacancies

### Description

The UPMC Internship Research Graduate Program 2025 offers talented graduate students an opportunity to engage in cutting-edge research and contribute to innovative healthcare solutions. This program is designed to foster the growth of future researchers and scientists by providing hands-on experience, mentorship, and exposure to the latest technologies and methodologies in the field of medical research. Interns will work alongside seasoned professionals in various research areas, gaining valuable insights into both academic and clinical research practices.

### Responsibilities

- Conduct research and assist in the development of new research projects under the guidance of senior researchers and principal investigators.
- Collect, analyze, and interpret data using statistical software and laboratory tools.
- Assist in the preparation of research papers, reports, and presentations for internal and external audiences.
- Participate in laboratory experiments and clinical studies as required, ensuring compliance with health and safety protocols.
- Attend and contribute to team meetings, seminars, and other academic events.
- Assist with administrative tasks related to research, including maintaining databases, preparing documentation, and handling research-related correspondence.
- Contribute to literature reviews and support ongoing projects by reviewing current trends and advancements in medical research.
- Support the coordination of research activities with various internal and external stakeholders.

### Qualifications

- Enrollment in a graduate program (Master's or Ph.D.) in a relevant field such as Biomedical Science, Healthcare, Engineering, Public Health, Life Sciences, or similar disciplines.
- Strong academic background with an interest in research and healthcare innovation.
- A passion for learning and developing skills in research methodologies and clinical practices.
- Ability to work effectively in a collaborative team environment.

### Experience

- Previous experience in a research or academic environment is preferred but not mandatory.
- Exposure to laboratory work, clinical trials, or data analysis is a plus.
- Familiarity with scientific research methodologies, including quantitative and qualitative research techniques, is beneficial.

### Hiring organization

UPMC Internship

### Employment Type

Intern

### Duration of employment

6 Months

### Industry

Hospital And Health Care

### Job Location

Pittsburgh, PA, United States, 15201,, Pittsburgh,, PA,, United States,

### Working Hours

8

### Base Salary

10

### Date posted

December 28, 2024
